

13. srečanje Slovenskega biokemijskega društva

13th meeting of the Slovenian Biochemical Society

24. - 27. 9. 2019

Terme Dobrna, Slovenia

Topics *Teme*

Synthetic biology
Molecular basis of disease
Protein structure and function
Cell signaling and membranes
Biotechnology and bionanotechnology
Molecular interactions and networking
Functional genomics and systems biology

Invited speakers *Vabljeni predavatelji*

Matej Butala, University of Ljubljana, SI
Bruno Correia, École polytechnique fédérale de Lausanne, CH
Juergen Dittmer, Martin Luther University Halle-Wittenberg, DE
Damjana Drobne, University of Ljubljana, SI
Jim Huntington, Medical Research Council Cambridge, UK
Peter Korošec, University Clinic of Respiratory and Allergic Diseases Golnik, SI
Andriy Luzhetskyy, Saarland University, DE
Adil Mardinoglu, KTH - Royal Institute of Technology, SE
Guillaume van Niel, French Institute of Health and Medical Research (Inserm), FR
Pablo Pelegrin, Instituto Murciano de Investigación Biosanitaria, ES
Toni Petan, Jožef Stefan Institute, SI
Marjan Slak Rupnik, Medical University of Vienna, AT
Anže Smole, University of Pennsylvania, US
Martin Trapečar, Massachusetts Institute of Technology, US
Boris Turk, Jožef Stefan Institute, SI
Oren Tzfadia, Ghent University, BE
